5 REASONS TO CHOOSE ONDA-UP

The retractable cover for flat-roof pergolas

1 MODERN DESIGN

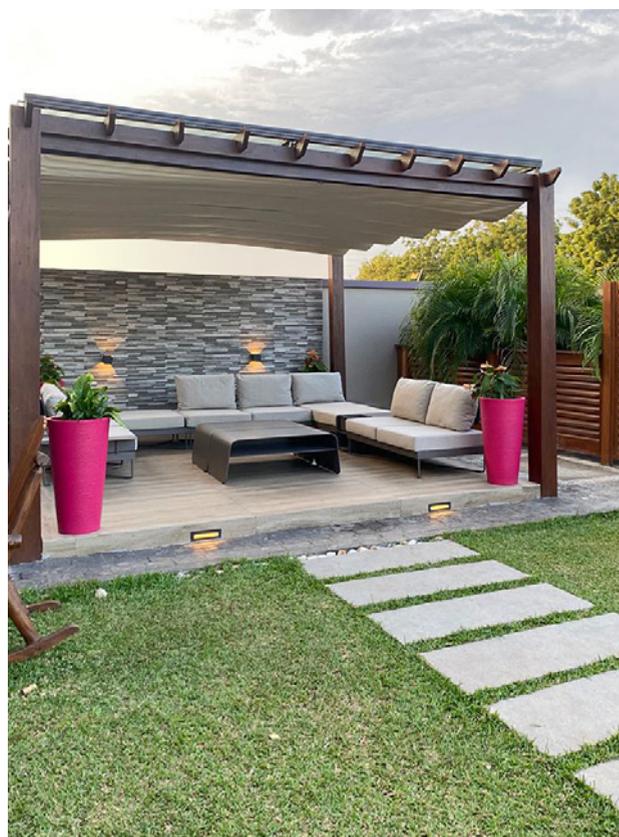

The product boasts a modern design, where minimalist aesthetics and functionality blend harmoniously to suit any flat-roof pergola.

2 WATER PROTECTION

Onda-up is a retractable cover for flat-roof pergolas that channels rainwater outside, providing protection against weather conditions. The fabrics are available with either lateral or bilateral water drainage.

3 DURABILITY OVER TIME AND MINIMAL MAINTENANCE

The smooth and effortless manual opening system, combined with the choice of high-quality materials, ensures the product's long-lasting durability. Thanks to the simplicity of its components and the absence of complex motorized systems, maintenance is limited to general cleaning.

4 CUSTOM-MADE PRODUCT

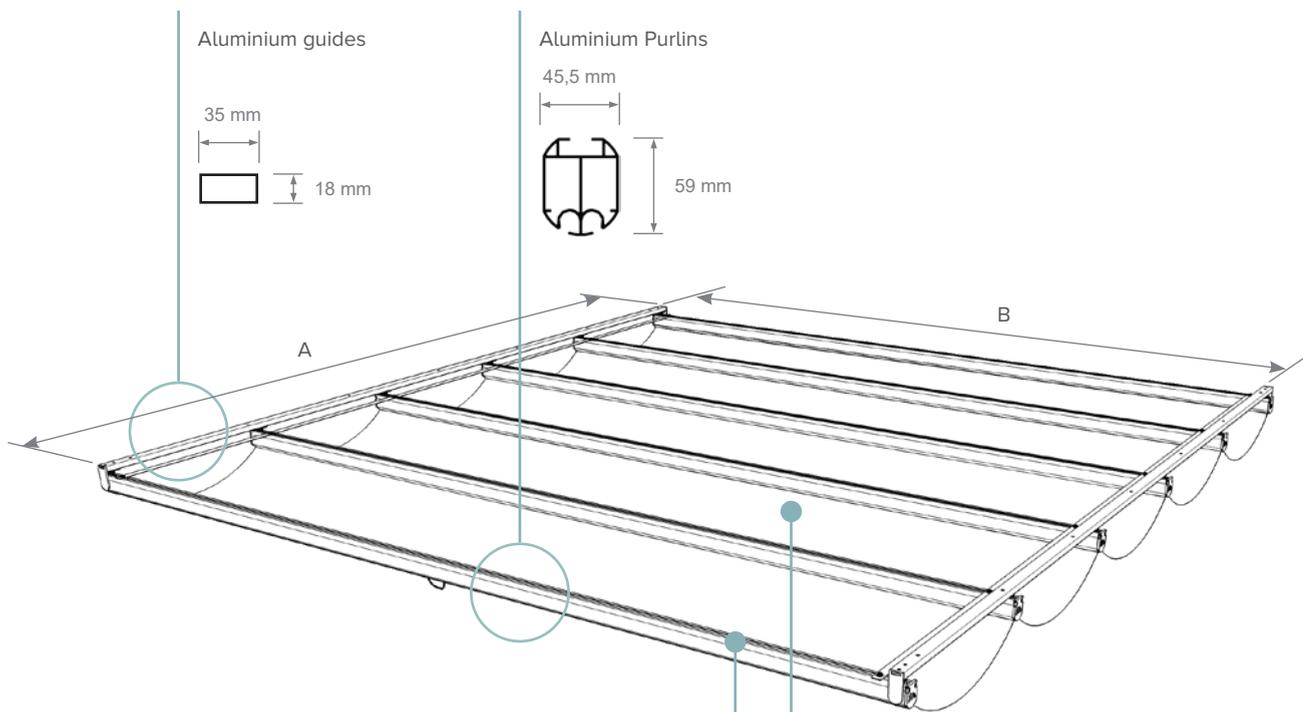

Onda-up is available custom-made, ensuring a precise fit to the design requirements of each client, in compliance with the structural limits defined by static calculations.

QUICK INSTALLATION

5

The attention to design and the simplicity of the components ensure quick installation without the need for specialized tools or highly qualified personnel.
